

## Answer the question

### Instruction

Read ALL the questions before starting the exercise. Try to finish the exercise as quickly as possible.

- 1 What does  $2 \times 2 \times 3$  equal?
- 2 Name two capital cities in Europe.
- 3 What colour do you get when you mix blue and yellow?
- 4 Write your name at the top of the paper.
- 5 Who do you think is the most powerful person in the world?
- 6 What is your favourite film?
- 7 What does  $(3 \times 3) + (5 \times 2)$  equal
- 8 What is the third letter of the alphabet?
- 9 How many sides does a square have?
- 10 Now that you have read all the questions, go back and answer the first two questions only. Once you have answered the first two questions you have finished. You do not need to answer any other question.

This exercise is relevant to the problems of brain injury because it demonstrates how impulsive we can all be, jumping in head first without carefully weighing up what is required. This trait is particularly pronounced after a head injury. Think of a situation where you have been impulsive and write it down.

How did you find this exercise? Easy ☐ OK ☐ Hard ☐ What strategies did you use?
