

NeuroPraxis

Empowered Recovery | Restored Independence

www.NeuroPraxisRehab.com

"In the quest for healing, the synergy between a supportive community and the dedicated NeuroPraxis rehabilitation team is a force like no other."

We believe that every step taken towards recovery brings us closer to a future filled with hope, resilience, and renewed possibilities."

Christine Weaver
Founder & CEO | NeuroPraxis

The top half of the page features a background of teal puzzle pieces. A large, thick arc, colored green with an orange outline, curves across the middle of the page, framing the title.

ABOUT NEUROPRAXIS

NeuroPraxis is a cutting-edge rehabilitation program that provides comprehensive and individualized treatment to adults and adolescents with brain and/or spinal cord injuries in the comfort of their own homes.

Our interdisciplinary staff successfully incorporates technological advancements and innovative rehabilitation techniques to help clients overcome their TBI and/or SCI-related physical, emotional, and social challenges.

NeuroPraxis believes that people are the most valuable part of any recovery journey, and we strive to create possibilities to maximize clients' independence, regain what was lost, and thrive for years to come.

OUR PROGRAMS

IN-HOME AND COMMUNITY

Individualized, outcome-based therapy delivered in the client's home and out in their community with focus on maximizing function and returning to their role within the family and community.

IN-HOME SUPPORTED LIVING

Long-term care in a client's own home that empowers them to live life with continued independence.

VESTIBULAR REHABILITATION THERAPY (VRT)

Movement-based program designed to address vestibular-related challenges that affect function, independence, and safety in real-life situations.

PAIN MANAGEMENT

Interdisciplinary approach to effectively manage and alleviate pain utilizing various methods, including physical therapy, psychological therapy, and mind-body techniques.

WHY NEUROPRAXIS

A trusted partner in providing exceptional neuro-rehabilitation at home dedicated to healing and finding solutions to the most challenging cases.

Proven treatment programs with excellent success rates in helping people find their own normal and thrive beyond care.

Empowered rehabilitation delivered at home for a successful skill translation and better outcomes.

Innovative technology and care with a commitment to heal with therapy accessible from anywhere.

Proactive care that uses a 360-degree perspective to achieve goals while in one's own environment.

OUR OUTCOMES

Based on a 2021 NeuroPraxis Client Survey:

- **90% of those surveyed reported substantial improvements in attention, concentration, and depression.**
- **95% of surveyed clients reported substantial improvements in memory, pain, headaches, self-awareness, and social contact with friends.**
- **100% of surveyed clients who had completed the home and community reintegration program reported vast improvements in anxiety, fatigue, and sensitivity to mild symptoms.**

TESTIMONIALS

"I have used NeuroPraxis for complex TBI treatment and case management for three years. Their interdisciplinary therapist team and state-of-the-art TBI clinical expertise have benefited my referred patients' lives extensively. NeuroPraxis is an excellent treatment resource for any complex TBI case."

STAN SMITH, L.N.F.A. | SENIOR VICE PRESIDENT | PARADIGM SPECIALTY NETWORKS

"I think the world of NeuroPraxis. My patient really liked the care he received. Their influence in the case provided a huge difference in the quality of his life. I will refer to them again."

SUE COLEMAN, R.N., B.S.N, C.C.M. | NURSE CASE MANAGER

"As a dedicated patient advocate for 20 years, I believe in the quality and caring work of NeuroPraxis in helping rehabilitate brain injury patients. I have referred to and will continue to refer TBI patients to them."

PRISSI COHEN, R.N. | FOUNDER, PROPATIENT ADVOCACY

"It is a very good program and we saw much improvement since they started working with my husband. NeuroPraxis made us feel included and informed every step of the way. The whole team is knowledgeable, patient, compassionate, which made it comforting to work with them."

DIANA MARCH | WIFE OF CLIENT
